

How to calculate?

Multiple (1.25) times the length of the Scupper Size

Example: $1.25 \times 8" = 10\text{GPM}$

PROUDLY DESIGNED &
MADE IN THE **USA**

GPM - CHART

Scupper Size	GPM (Gallons Per Minute)	Calculation
8"	10GPM	$1.25 \times 8" = 10\text{GPM}$
12"	15GPM	$1.25 \times 12" = 15\text{GPM}$
24"	30GPM	$1.25 \times 24" = 30\text{GPM}$
36"	45GPM	$1.25 \times 36" = 45\text{GPM}$
48"	60GPM	$1.25 \times 48" = 60\text{GPM}$

Why Choose Us?

The Outdoor Plus specializes in creating custom scuppers built to last, using premium American-made materials. We use a variety of materials to craft our scuppers, including copper, stainless steel, and even resin in some cases. At The Outdoor Plus, we're known for producing the best quality fire and water features. That's why many professionals in the landscaping and architecture industries choose us for their commercial or residential projects. Contact us today to learn more about our scuppers and other outdoor products.

Built To Last

Our scuppers are built to last using premium American-made materials. At The Outdoor Plus, we are committed to quality, attention to detail, and the use of premium American-made materials. Our scuppers provide you with years of beauty and functionality.
